PROJECT : TRAVELLING WEBPAGE

About :

This travelling website is about what are the famous places in Andhra Pradesh. To know about this website one should register in my website. For that I maintain a database so that only valid users can visit my website.

We may have some queries about our destination place. For that I create a page where my users can post their queries like user interface. They can modify their post and they can delete their post with only valid user credentials.

The Technologies I used in the website:

1. HTML
2. CSS
 - . Inline
 - . Internal
 - . External
3. Javascript

4.PHP

5.GitHub
